Vol. 9, No. 45 EDMONTON, ALBERTA, WEDNESDAY, NOV. 7, 1956 Section One—8 Pages

FEDERAL GOVERNMENT IS URGED TO REBUILD AND MAINTAIN WHARVES

The future of waterfront facilities in Lac la Biche has been to the fore in recent weeks, since local M.L.A. Michael Maccagno launched a campaign to persuade the federal authority to continue supervision and reconstruction of the town wharves.

A counter proposal of the Federal authority is to offer to rebuild if the town will undertake to buy them for $1 each and pay for future maintenance.

Mr. Maccagno was scheduled to report to the Chamber of Commerce this week on the outcome of negotiations which have been proceeding between himself and District Engineer J. E. Kellett of the Federal Department of Public Works, harbors and rivers division.

As outlined to the Chamber, the federal officer had first suggested that the repair of one wharf only would be sufficient to provide service for the town. Mr. Maccagno argued that two wharves are as necessary today as when they were first constructed. The west wharf gives refuge to the large boats and to aircraft during storms, while the Nanton St. wharf is handy for town traffic and smaller craft.

Mr. Maccagno went on to detail the facts of the situation. He said more than 50 local boats use the wharves during summer months, and tourist trade is increasing yearly. He said greater use of the two wharves is now being made than at any previous time.

The development of Big Island as a park, the revival of fishing and the growth of the summer residential population were other factors weighing in favor of further government action, the MLA said. He mentioned also the activities of Exeter I, II and III, which are a vital part of Lac la Biche community life.

"With this information before you, will you be good enough to give consideration to our request of having both wharves repaired so that they may be again used to good advantage for the coming season, and that further consideration be given to the addition of another wing to the east end of the Nanton St. wharf, making it into the shape of a T?"

Replying to this proposal, the federal engineer said it appeared that the main purpose of the wharves was pleasure boating. Information received from the Provincial Fisheries office revealed that the maximum catch is 1,000,000, lbs., of which 75% is the summer catch, only a small percentage passing over the breakwater.

"Considering that 375 tons of commercial merchandise passes over the wharves annually, this does not present a picture of very great use of these faciltities to justify their reconstruction," Mr. Kellett advised.

"It is estimated that the Nanton St. wharf will cost approximately $25,000 to reconstruct, while the breakwater will cost approximately $40,000 to repair, and until such time as lake levels drop to normal it will be impossible to carry out the repair works."

The engineer then stated that the Public Works department is not prepared to provide and maintain public wharfage for tourist purposes. "Under the circumstances there seems to be little reason for the two Lac la Biche structures to be maintained by public funds," he pointed out.

M. MACCAGNO, M.L.A.

The federal proposition was then laid out for local approval: If the Town of Lac la Biche will undertake to accept the transfer of these two structures for administration and maintenance, the federal authority will pay for rebuilding and placing them in first class condition. The transfer would then be made to the local authority at either no cost or the nominal cost of $1 for each wharf.

This is the situation as it obtained just prior to the Chamber meeting at which Mr. Maccagno was scheduled to report.

Briereville Residents Are Bereaved

Frank Gorday died in an Edmonton hospital Monday, Nov. 5, as a result of injuries received when he fell five stories in a lift that failed by some mechanical fault. He was fatally injured and never regained consciousness. His brothers George, Dan and Bill live at Briereville. He is survived by his wife and two children.

School For Parents —Radio Series

THE 14th annual CBC School for Parents will be broadcast on Trans-Canada Matinee for nine Thursdays beginning Nov. 1 and continuing through December.

Dr. S. R. Laycock, former Dean of Education at the University of Saskatchewan, will be speaker in this series which he has conducted since the first was broadcast on the CBC in 1942.

Dr. Laycock is a recognized authority on child psychology and parent education. His new book, Brief Chats With Parents, just published by Copp Clark, embraces the kernel of his talks over the CBC.

For many years Dr. Laycock has worked closely with the Home and School and Parent-Teacher Federation, serving for a time as their national president. He estimates that he has spoken to more than 1,000 Home and School and Parent-Teacher Associations from the Maritimes to the Yukon.

Discipline at Home is the title of Dr. Laycock's 1956 School for Parents on Trans-Canada Matinee. Questions discussed in his nine talks will be:

Nov. 1—What is Discipline?
Nov. 8—Corner-stones of Effective Discipline.
Nov. 15—Discipline That Works.
Nov. 22—Punishments Good and Bad.
Nov. 29—Discipline and Eating.
Dec. 6—Discipline and Sleeping.
Dec. 13—Discipline and TV, Radio and Comics.
Dec. 20—Discipline and Family Chores.
Dec. 27—The Well Disciplined Child.

Rev. J. G. Gibbons Conducts Missions

The Rev. Jack Graydon Gibbons, rectory of All Saints' Church in Athabasca, last week conducted two successful missions in Rich Lake School, and in Christ Church Wandering River.

Mr. Gibbons was aided by the Deanery clergy. They included the Rev. Glen Ash of Colinton, the Rev. Bernard Hart of Boyle, the Rev. R. S. H. Greene of Lac La Biche, Rural Dean, and Captain Clarence Babcock of the Church Army, in charge of the Church's Missions at Smith and Hondo.

As with the previous missions in the Deanery, those in Rich Lake and Wandering River were well-attended, especially on the latter evenings. Mr. Gibbons was also the special speaker at the 2nd anniversary service at the Church in Rich Lake.

Announcements about further missions in the Deanery will be released later.

DIOCESE OF ATHABASCA HOLDS CLERGY CONFERENCE

A successful clergy conference was held recently by the Athabasca Diocese of the Anglican Church. The conference which was held in Peace River, was called by the Bishop of Athabasca, the Right Rev. R. J. Pierce, D.D.

Attending the conference were 14 priests, four deacons, two bishop's messengers and a church army captain. Absent from the gathering were three priests stationed in isolated missions, at Fort Chipewyan, Atikameg, and Wabasca. At the latter two points the church operates Indian schools.

Proceedings opened Tuesday evening with a service of Evensong in St. James' Cathedral at which the special speaker was the Rev. Desmond Hunt, rector of St. James' Church, Kingston, Ontario.

The theme addresses of the conference were delivered by the Rt. Rev. Howard H. Clark, Bishop of Edmonton. Bishop Clark spoke on the treasury of the Prayer Book. Drawn largely from the Bible it is a great guide and aid in our daily life.

The Rev. Roy Crisfield, rector of High Prairie, spoke about St. Augustine's College in Canterbury, England. Mr. Crisfield, who recently returned to the Diocese after spending a year at the college, touched on the world-wide nature of the Anglican Communion. Priests from many corners of the world were his classmates. The days of the martyrs are not finished said Mr. Crisfield as he told of a Kikuiu priest who was slain in his bed. The policies of racial discrimination being carried out by the present South African government are meeting their stiffest opposition from Anglican priests such as Father Trevor Huddleston. The speaker warned the clergy about smugness or complacency. The immigration policies of the Canadian government are just as discriminatory in relation to Orientals and British West Indians as are the policies of countries we often criticize.

Other speakers at the conference were the Very Rev. A. E. Thain, Dean of Athabasca, and the Venerable James Whittles, Archdeacon and secretary-treasurer of the Diocese.

Dean Thain reported on a Parish Life Conference, which he had attended recently at Aurora, Ont. Archdeacon Whittles spoke on Diocesan Finance and the Every Member Canvass.

The conference concluded with the singing of solemn Evensong in the cathedral by the Rev. Roy Crisfield, assisted by the Rev. Canon Newman, rector of Berwyn and Grimshaw.

Delegates from Athabasca Deanery included the Rev. J. G. Gibbons, Athbasca the Rev. Glen Ash, Colinton; the Rev. Bernard Hart, Boyle; the Rev. R. S. H. Greene, rural dean, of Lac la Biche, and Captain Clarence Babcock, Church Army, in charge of the mission at Smith and Hondo, and the Rev. Horace Dunster, rector of Fort McMurray and Waterways.

Owl River

The pubic health nurse at Lac La Biche has made numerous visits to the schools and to some homes in the community recently.

Mrs. Joe Ray Sr. has spent the past two weeks visiting her son, Joe Ray Jr. and family who reside in Lac La Biche.

Mr. Kuncio has returned home from a business trip to Edmonton.

Egg Lake

Mr. and Mrs. Albert Carrier, Gisele and Angele, visited Mrs. Deschotelete's at Jasper Place. They also visited their sister, Mrs. Blouin and family, and Miss Paulette Lecavalier.

EDMONTON INVESTMENT brokers were entertained at an informal reception at the Hillcrest Country Club by directors of Melton Petroleums Limited, who outlined the company's plans in connection with a development of residential property to the southwest of the present city limits. Pictured above are A. K. Snell, Melton Petroleums director Andrew Bory, Jimmy Collins, Melton Petroleums director Douglas Gray and Ronald Dickson. The company's property, 1350 acres, includes three miles of river frontage and a mile and a half of Whitemud Creek including Rainbow Valley.

Priest-in-charge. The Rev. R. S. H. Greene, Phone 12, Lac La Biche.

Bishop To Ordain Three Priests In Boyle

It was announced in Peace River that the Right Reverend R. J. Pierce, Lord Bishop of Athabasca, would ordain three deacons to the Priesthood in St. Paul's Church, Boyle.

The date set for the ordination is the Second Sunday in Advent, Dec. 9th, at 10:30 a.m. It is believed that this is the first time an ordination to the priesthood has been held in this area. The ordinands are all graduates of Emmanuel College in Saskatoon, having been ordained to the diaconate early this year in St. James' Cathedral, Peace River.

They include the Rev. Glen Ash who will continue as incumbent of the mission of Colin-m. The Rev. Bernard Hart will also remain at his post in Boyle. The third ordinand is the Rev. Dennis Blair-Brown at present in charge of the mission of Cherry-Point and Hines Creek in the Grande Prairie Deanery of the Diocese. The following week the Bishop will journey to Fort Vermillion where he will ordain another deacon. the Rev. Eric Blackstock to the priesthood.

Diocesan officials said that with these ordinations, the Diocese will be better manned in its present boundaries than ever before in its history. Bishop Pierce is the seventh Bishop of the Diocese. The Diocese was founded in 1874, and its first Bishop was the famous Apostle of the North' William Carpenter Bompas, who came to the north west nearly 100 years ago.

Figures Reveal Alberta's Progress

The town of Stettler led other Alberta communities in borrowing from the Municipal Capital Expenditure Loans Fund during the month of September, with its loan of $133,500. The moneys will provide for a street and sidewalk building program. Six communities borrowed a total of $293,600 from the fund during the month.

Loans granted included $78,000 to Fairview for its water system; $9,000 to Evansburg for its sewer system; $25,500 to Calmar for its sewer and water program; $34,000 to Fort Saskatchewan for the purchase of land; and $10,600 to High Prairie for the sewer and water installation program.

Total amount borrowed from the Fund during the period April 1 to September 30 came to $23,846,505.

During the month of September, 39 Alberta rural electrification associations borrowed a total of $353,697.22 from the Rural Electrification Revolving Fund. The total amount loaned out by the fund, up to September 30, came to $13,931,895.00.

The total number of companies incorporated in Alberta during the month of August, last month for which complete records are available, come to 104 and total authorized capital was $9,353,800.

Retail trade in Alberta for the period from January to July this year came to $607,891,000, a jump of 10.5 per cent over the amount for the same period the year previous. Wholesale trade for the period from January to August this year came to $493,994,636, a jump of 16.5 over the same period last year.

July figures for bank debits this year were $1,093,526,000 which showed a jump of 32 per cent over the total of $828,129,000 for the same month last year. The jump for the period from January to July this year was 25.2 per cent.

About 3,000 more new motor vehicles were sold in the province for the same seven-month period this year than last, with 25,895 in 1956 and 22,734 for last year.

One of the few points in the Alberta economy picture that showed decline was in the building field. In the period from January to August this year, there were in the eight major cities, 9,875 building permits to a value of $104,380,059 issued. This in contrast to 9,938 permits valued at $114,757,204 issued for the same period last year.

One of the best barometers of tourism showed favorable returns, with figures of tourists entering the national parks in the province indicating a 7.1 per cent jump for the first nine months of this year over last year for the same period.

New Government Venture Starts Operating With 1-Pound Bonds

(Special to the Sun)

On Thursday, Nov. 1, the new British Government lottery bonds went on sale in banks and post offices throughout the United Kingdom. They revived an old British and French custom of floating government loans and offering subscribers a chance to win something extra instead of the regular interest.

Reports indicate the Bonds already are being ordered by Canadians through their banks. Since the British Parliament has decreed the bonds are properly registered securities, and are not regarded as lottery tickets, there appears to be no barrier to Canadian participation apart from the normal exchange regulations.

Each bond will cost £1 (1 pound) Sterling, which is about $2.80 Canadian. Each will be registered in the name of its owner at the time of purchase and no person may hold more than 500 of the bonds. Provision has been made for the sale of Gift Certificates, so that lottery bonds may be given as Christmas presents or other gifts as desired.

At the expiry of six months, each bond will be eligible for a prize drawing and these drawings will be held every month thereafter. Winning a prize will not disqualify the bond for further drawings. Prizes will consist of a first of $2,800, two seconds of $1,400, four thirds of $700, ten of $280, twenty of $140 and two hundred of $70 each month. The winnings are free of British income tax. Prizes will be freely remitted to winners outside the United Kingdom.

The bond prizes will be supplied from a pool equivalent to 4% interest on the money invested. Persons under 16 are not eligible to buy them.

According to information received by The Sun from the British Information Office, "Overseas investors will be able to buy the bonds on the same terms as they can buy other British National Savings securities. The rule is that persons outside the Sterling area may use for this purpose only those funds in Britain which are eligible for the remittance to their country of residence (i.e. funds not blocked), or new funds. In the latter case an overseas buyer would make arrangements through his own home bank to make payment from his home country."

The first draw will take place next June. This will be the first occasion since 1826 when British people have been able to participate in a government lottery. Prior to that date, state lotteries were an important part of government revenue sources, just as they were in Colonial America and the early United States.

Order Port-Mortem In Highway Death

STETTLER (BUP) — A post mortem examination was conducted on a 59-year-old Stettler resident who was found dead behind the wheel of his car following a minor traffic accident.

RCMP in Edmonton said that Henry Tench had apparently suffered a fatal heart attack when involved in the highway mishap in which neither he or the driver of the other vehicle were injured.

District Coroner Dr. Zenda of Stettler ordered the post mortem to determine the exact cause of death.

One Killed As Train Rams Car

PONOKA (BUP) — A Ponoka man, Charles Kenyon, was killed when his car was rammed by a CPR freight train at a railroad crossing near the Ponoka station.

Kenyon was alone at the time. The car was carried about 100 feet along the right-of-way.

It was not known if an inquest would be held.

Another man was injured about an hour later when his car was struck by another southbound freight at the same crossing. The vehicle was hurled into the air but landed upright.

Coal Production Down In Alberta

EDMONTON — Alberta coal production during September totalled 220,519 tons. 30,104 tons less than in the same month of 1955, the provincial mines department reported.

The Crowsnest Pass area continued to lead production, with 87,806 tons for the month. Drumheller turned out 76,059 tons, Castor 46,285.

If you ever had a doubt about the two sides to every question just listen to the campaign orators.

Ross Ellis New M.D. President

LETHBRIDGE BUP) — The Union of Alberta Municipalities wound up last week its 52nd annual convention in Lethbridge.

Ross Ellis of High River succeeds Mayor William Hawrelak of Edmonton as president. James Stone of Jasper Place was elected first vice-president and Mayor T. Russell Haig of Lethbridge, second vice, while Mayor Hawrelak becomes honorary presdient. Next year convention will be held at Calgary.

REV. GORDON BARSS

Missionary To Speak In City

Rev. Gordon Barss, B.A., B.D., who will be guest speaker at Strathcona Baptist Church Tuesday, Nov 13 is the son of missionary parents, Dr. and Mrs. G. P. Barss, who rendered outstanding service for many years in our Canadian Baptist mission in India. After receiving his early education in India, Gordon came to Canada and graduated in Arts and Theology from Acadia University. He and his wife then set out for India as missionaries in 1939, and they are now on furlough after two terms of distinguished service.

During the last several years in India, they have been in charge of the Parlakimedi and Tekkali fields, where they have given wise leadership in the work of evangelism. Mr. Barss has been president of both the Missionary Conference in India, and of the Telugu Convention; Secretary of the Baptist Union of India and Pakistan; and president of the Orissa Provincial Christian Council. We are happy that the Baptists of western Canada are to have the privilege of hearing this capable Maritime missionary recount some of the great things that God has done in the hearts of people on our mission field in India.

Asbestos Cement To Build In City

EDMONTON (BUP)—Asbestos Cement Products Ltd., with head offices in Vancouver, announced in Edmonton last week it would establish an office and warehouse in the Alberta capital early next spring.

The company manufactures a range of asbestos cement building material at its New Westminster, B.C., plant.

Sees Lack Of University Graduates Crippling Canada's Economic Growth

CALGARY (BUP) — The president of the Canadian Pacific Railways says that the "unbelievable" economic growth of Canada may be crippled unless universities are equipped to supply far greater numbers of graduates.

Norris R. Crump told a gathering in Calgary that the universities need the financial assistance of governments, both federal and provincial, and another important contribution must be made by companies. The support of individuals also is very necessary.

He said that under today's competitive conditions, "adequate salaries would have to be provided or industry would lure away potential teachers.

The seats of higher learning need more faculty, in addition to more classroom and laboratory space and bigger libraries.

The CPR president estimated a current figure of 70,000 Canadian university students. By 1961 there will be 100,000 and 10 years from now the present figure will have doubled, he added.

Although universities are being faced with greater enrolments than they can handle, Canada lags behind both Russia and the United States in the number of college students per 1,000 population, he said.

In the U.S.S.R. the figure was 19.6 students per 1000, in the United States it was 15, but in this country it was only 4.9.

Immorality "Out"; And So Were Girls

LOS ANGELES (UP) — Three models charged in a muncipal court suit they were fired from jobs as hostesses at the American Bankers Association convention because they refused to commit immoral acts with delegates.

The suit was brought by the three red haired models against the firm which hired them, Diebold Inc., a vault manufacturing company, which had booths at the convention headquarters.

The models said in their complaint they were told they "would be expected to go out with the men of the convention to commit illegal and immoral acts."

The trio said they refused to agree to such activities and were told not to report for work at the convention headquarters. Filing the suits were Arline Hunter, 22, and Mary Erickson, 26, who asked $150 each and Donna Hunter, 23 who sought $127.55 for the time they were hired.

Seven-year-old Larry Johnson, of Yale, Okla., looks at the Yo-Yo he swallowed while playing. He was rushed to hospital where doctors removed it.

Edmonton Man Faces Negligence Charge

CRANBROOK, B.C. (BUP) — An Edmonton man, 25-year-old James Victor Waddington, faced a charge of criminal negligence in Cranbrook.

Waddington was free on $1,000 bail after being remanded to Nov. 28 for preliminary hearing of a charge of criminal negligence in the highway death of Axel Harold Granberg of Cranbrook, Oct. 4.

The charge was laid following his release from hospital where he had been treated for concussion following an accident to his car near Springbrook, B.C. He was alleged to have been the operator of the car in which two hitch-hikers, Granberg and Keith Montgomery of Drumheller, were riding. Granberg died when the car turned over, but Montgomery escaped unhurt.

STORMY PETREL'S MEMORY STILL GREEN IN ALBERTA'S CAPITAL

EDMONTON (BUP)—The memory of Mayor Joe Clarke is still green in the city of Edmonton

The "stormy Petrel" of civic politics for 32 years is remembered now some 15 years after his death by the 21,000-seat stadium named in his honor for his work in forwarding all forms of sports in the city. Clarke Stadium is the home of the national champion Edmonton Eskimo football club.

Born at Osnabuck, Ont., in 1869, Joseph Andrew Clarke received his education in Ontario and took his law course at Osgoode Hall, Toronto. In his youth, he distinguished himself as an athlete, and his interest in sport of all kinds was exceedingly keen throughout his life.

After joining the old North West Mounted Police, he deserted in 1892 because he was "fed up", then stood trial in the east for his action and was rebuked and fined $100.

At the turn of the century, Joe Clarke was in the Yukon and served on the Yukon council in 1903. It was while in the boom city of Dawson that he obtained the unique distinction of being about the only amateur boxer to have his leg broken by getting socked on the jaw.

"I was not much of a pugilist and told my opponent, 'Kid' Owens, a member of the NWMP, before the bout started, we would have to make a real fight of it, as I was no boxer. I just made one bad mistake—I had my feet crossed in the first round, when the 'Kid' connected with my jaw. He didn't hurt my head, but my ankle snapped when I went down."

He was admitted to the bar in 1906, and came to Edmonton two years later.

Clarke, who liked to be known as plain Joe, was the first citizen to hold the office of mayor for five terms. He was first elected mayor in 1919 and was re-elected in 1920, 1935, 1936 and 1937. He also served for eight years as an alderman.

However, he never succeeded in being elected to the Alberta legislature or the House of Commons, although he tried on eight different occasions.

It was largely through his efforts that the abandoned Edmonton penitentiary was obtained by the city from the dominion government in 1930. The 26-acre site was built into the most modern stadium in Canada during the hungry 30's as a relief project.

It is a lasting and fitting monument to one of the city's pioneer citizens and best known sports boosters.

Will Not Abolish Judgment Impost

The Alberta Government has no intention of doing away with the tax of $1. which is imposed on motorists when they pay for their car licenses, according to Hon. G. E. Taylor, the Highways Minister.

He said an earlier statement attributed to Provincial Treasurer E. W. Hinman was not intended to mean the immediate abolition of the one dollar impost, which goes into an Unsatisfied Judgment Fund.

Unregistered or stolen cars and cars not otherwise covered by insurance will still be driven, Mr. Taylor said, and will still be involved in accidents. Without the unsatisfied judgment fund victims of those accidents would be left "high and dry," with no sure compensation for their personal or property loss.

However the fee for the unsatisfied judgment fund will be adjusted, the minister stated, when the full effect of the new insurance regulations is known and the necessary experience obtained.

Mr. Taylor said the provincial government is giving "close scrutiny" to increasing the minimum car insurance a motorist must carry.

"The existing minimum requirement is absolutely unrealistic," he said.

Insurance experts, Mr. Taylor said, believe the minimum amount of auto insurance should be $10 000 for one person injured, $20,000 for two or more injured; and $5 000 for property damage.

At present, the amounts required in the province are $5,000, $10,000 and $1,000 respectively.

It's pretty easy to voice an opinion before one knows much about the subject involved.

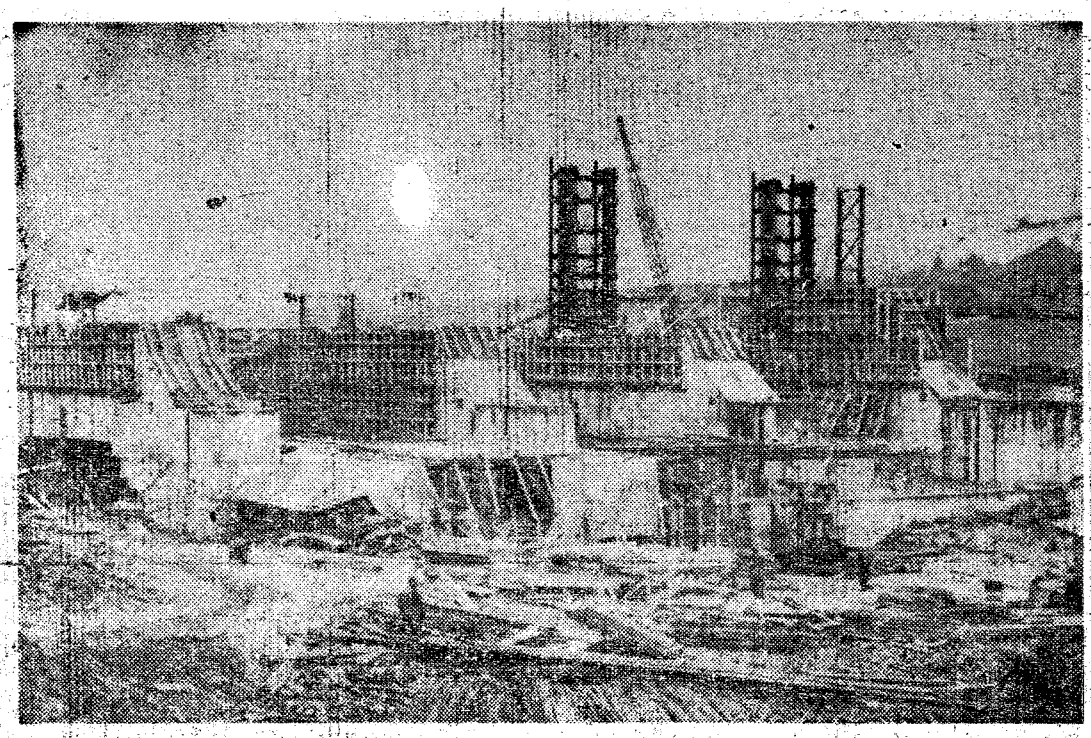
Canada's Story in Pictures

FABULOUS NIOSO BROTHERS play just about every major band instrument and though seldom seen they are often heard in Toronto CBC orchestras. Dick MacDougal on left, is merely trying out that tiny trombone, but Joe and Johnnie Niosi play everything in the band. For more hams, see below.

HIGH LEVEL artists of orchestra and vocal persuasion adorn TV screers of Canada, just as high level hogs adorn their tables as result of precautions such as we see here. While on the high level theme, we must include airmen and airports, as we know them in Canada. High level power plant is also shown.

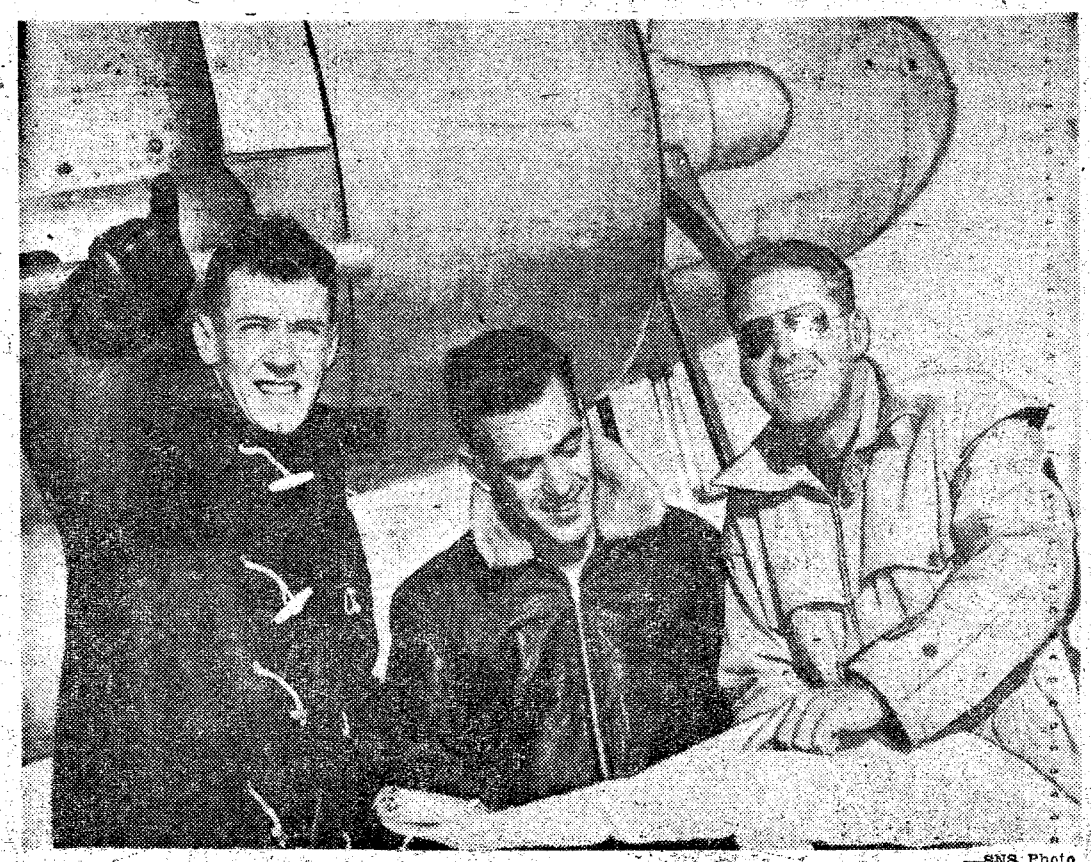
WALLY KOSTER AND JOYCE HAHN have returned to CBC-TV's weekly spectacular "Cross-Canada Hit Parade".

MEASURE BACON QUALITY IN LIVE HOGS — To conserve breeding stock members of the Lacombe Experimental Farm staff use both an X-ray machine and a "Lean Meter" as a guide in selecting breeding stock of superior bacon quality without the necessity of a slaughter test.



—SNS Photo

Erection of two of the 32-ton, 40-ft. steel gate-guides for the west coffer dam rollways marks the latest development in the New Brunswick Electric Power commission's multi-million dollar St. John River hydro project at Beechwood. With completion of the first concrete pours in piers, shown in the foreground, the face of the 135,000 h.p. dam begins to take shape. Beechwood, scheduled for completion next summer, is one of a series of dams, costing $50,000,000, being built to harness the St. John river's hydro potential.



—SNS Photo

Principal Ontario base for the mid-Canada radar line airlift is the Timmins airport, the fastest-growing air terminal in Canada. The airport was laughed at by experts when the Timmins chamber of commerce promoted the building of the terminal by scrounging junk, begging subscriptions and generally doing everything backward, but the net result is that they spent $47,000 on their airport which, on the basis of its multiplying revenue, could be valued at over $2,000,000. Flying the mid-Canada radar line airlift, pilots Don White, at left, and "Red" Rogers of Toronto and Rex Gibbery of Regina are seen charting another flight. In the past five months they have delivered 1,600,000 pounds of urgently needed supplies and equipment to Hudson Bay.

Homemaker's Corner

By DORIS MONTALBETTI

WHO SPENDS THE MONEY?

Surveys show that the Canadian woman does about 80% of the buy-and spending for the family. It is your responsibility then, to develop a pretty keen sense of value. You must buy intelligently to save money and get the best for the least. But to do so you've got to know what to look for.

Many of you homemakers will be checking your supply of winter clothing. And no doubt you've made a list of replacements your family will need. Underwear probably heads the list. Our winters necessitate well-fitted warm undergarments. It's a big item on the budget and one that should be purchased wisely.

Consider the brand name, the fit, launderability, wearability — how well it's made, fashion and the price. Experience is a great teacher, you get to know how well a certain brand name performs. And with this knowledge you buy with confidence. Price isn't always an indication of quality. It depends on what you consider most important or the purpose to which the article is put.

These are some of the things to remember when you buy children's clothing. Comfort: all clothing must be properly cut and fitted and allow for growth. Some provision should be made in the design for self help. Children cannot learn to help themselves dress if clothing is not especially designed for this reason. Front plackets are a necessity — large, smooth buttons are easy for small children, too. Hooks and eyes, dome fasteners, fabric thread loops are all very difficult to manage. The material in children's clothes should be soft, non-irritating, yet durable. Heavy material may tire the child. That's why the nylon type of snow garments are more popular. Do not buy by age. Children seldom conform to average size. Buy by the girth (distance around) and height of child. And make sure the appearance of the garments are attractive and suited to a child. Use young materials, no satins, heavy materials, novelty weaves. Remember the child is the important thing — don't hide him or her in some elaborate garments.

Remember, consumers, your responsibility and train yourselves in the principles of Better Buymanship.

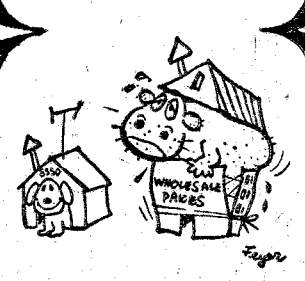
Here's what keeps the price of gasoline low



Why have wholesale gasoline prices increased only one-third as much as wholesale prices in general since 1935-1939?

Raw material and other costs have gone 'way up. Why not gasoline?

Gasoline prices have stayed down because a lot of companies are in the oil business—producing, refining and selling, more and more efficiently.

The consumer can shop around—looking for the best products at the best price.

Competition for the motorist's dollar keeps the price of gasoline low.
